

Science—Combined

What will I learn?

- Develop knowledge and understanding of ‘working scientifically’.
- Develop a wide range of practical and investigative skills.
- See the relevance of science in our daily and working lives.
- Consider and interpret scientific data, evidence and ideas so that you can reach your own conclusions.
- Develop knowledge and understanding of a broad selection of science topic areas.
- You will complete a number of ‘required practicals’ throughout the course. Final examinations will include questions about these ‘required practicals’ and so it is important that they are not missed.

What skills do I need?

You will build on the skills that have been important in science at key stage 3.

- Communication and ICT.
- Designing investigations.
- Observation skills.
- Using and presenting data.
- Working with others.
- Handling apparatus.
- Problem solving and research.
- Analysis and evaluation.
